

Dr.YSR Aarogyasri Health Care Trust (Govt of Andhra Pradesh)

CIRCULAR TO ALL NETWORK HOSPITALS

Lr.No.Dr.YSR AHCT/PMU-IT/F603/2019-20, Dated: 27.12.2019

Ref: No.Dr.YSR AHCT/PMU-IT/F603/2019-20, Dated: 23.12.2019

Sir / Madam,

Sub: Dr.YSR AHCT, Guntur – Implementation of Aadhaar based IRIS Authentication – Purchase of Aadhaar compliant IRIS Devices by all the Hospitals (Govt & Corporate) – Reg

With reference to the subject cited above, all the empaneled hospitals (Govt & Corporate) are hereby directed to make a note that Dr.YSR Aarogyasri Health Care Trust has migrated from the exiting standalone Biometric authentication system to the Aadhaar based Biometric authentication system through the Aadhaar compliant Biometric Fingerprint & IRIS Devices across the State.

In this regard, in the ref cited, a circular is already issued to all the CANCER & DIALYSIS hospitals to purchase and Implement the IRIS devices. It is noticed that the success rate of the IRIS based Aadhaar authentication is relatively more. In this connection, it is recommended that all the empanelled hospitals (Govt & Corporate) in the state and the hospitals empanelled from 1st of November, 2019 which are outside the State i.e., Hyderabad, Chennai, Bangalore are also directed to purchase and implement the IRIS Devices in addition to the Biometric Devices also for better success rate and hassle free treatment to the patients in the hospitals.

The required documents for installation, configuration, vendor details and related documents for IRIS devices are already available on the YSR Aarogyasri Portal.

Hence we reiterate the fact that all the empaneled hospitals (Govt & Corporate) are hereby directed to purchase and implement the Aadhaar based authentication through IRIS devices also immediately.

Chief Executive Officer
