The performance of various empanelled Community Health Centers (CHC) and primary Health Centers is very low in registering the eligible aarogyasri beneficiaries who come to these centers for Delivery under Dr. YSR Aarogyasri in the web portal.

This is leading to the beneficiaries not being able to avail the Aarogya Aasara (Post operative sustenance) amount. The hospitals and staff are also losing the patient care amount and incentive amount provided by the trust for providing the services to beneficiaries of Dr. YSRAHCT.

The common reason identified for this is lack of data entry operators at these hospitals. It is to note that the trust has already given directions to recruit data entry operators whose salaries can be met from the patient care amount.

All the Superintendents and Medical Officers are hereby instructed to ensure availability of necessary infrastructure (Computer with internet facility, Printer, Scanner and Biometry device) and recruit Data Entry Operators as per the requirement based on work load (whose salary can be met from the patient care amount part of the claim packages) to improve the registration of cases in Dr. YSRAHCT. In the interim, the services of Aarogyamithras posted in these centers can be utilized for registering cases, raising preauthorization and initiating claims. An appropriate incentive based on the work done can be provided these aarogyamithras.
