Cir. No.12 Dr. YSR AHCT/Operations/COVID/2021, Dated: 21.06.2021

Sub: Dr. YSR AHCT – revised circular on claim attachment submission under CATRACT EXTRACTION PHACO WITH FOLODABLE PCIOL in all NWH Hospitals – Reg.

Ref: Observation from ophthalmology panel doctors on CATRACT EXTRACTION PHACO WITH FOLODABLE PCIOL

As per the observation during claim processing for CATRACT EXTRACTION PHACO WITH FOLODABLE PCIOL (s3.8.9.1) under Aarogya sri it is observed and reported by various ophthalmology panel doctors that the above said procedure is being misutilized by many network hospitals. It is noted that NWH are performing SICS and are submitting photos as phaco with phaco probe, but all the post-operative and intra operative photos are related to SICS.

Based on the above observation and monitoring Dr YSRAHCT has made submission of WebEx video of the entire procedure of CATRACT EXTRACTION PHACO WITH FOLODABLE PCIOL showing patient face, name on case sheet clearly as a mandatory attachment during claim submission for all new cases registered from 01.07.2021, failing which the claim shall not be processed and shall be rejected. It is also instructed that any hospital submitting such photos shall be considered as cheating the trust and necessary legal action shall be initiated against those NWH. All the NWH are here by directed to note the above said change and submit accordingly.

Chief Executive Officer,
Dr. YSRAHCT.

To
The MD / CEO / Medical Superintendents of all the network hospitals.
The JEO(FOSS) for communication to the NWHs through DCs of Trust.
The GM(PMU) to place the circular in the web portal.
